by the square yard.*

Grand Tartan from Nourison brings a distinctively up-to-date and appealing fashion viewpoint to the world of luxury broadloom. With a fresh and warmly imaginative color palette, this collection recreates the traditional Tartan plaid as a sophisticated design complement for virtually any room in today's home.

Grand Tartan carpets are woven exclusively from the highest quality 100% New Zealand wool, the finest natural fiber for outstanding tactile appeal and years of lasting beauty.

Yarns for this collection are dyed by the most advanced methods of modern technology for an exemplary depth and subtlety of coloration. Our special state-of-the-art looms ensure an exquisitely modulated range of shading in every design, enhanced by a subtle abrash effect.

For classic design sensibility and a color palette perfectly calibrated to today's high fashion home, the Grand Tartan Collection from Nourison represents a singular achievement in fine floor covering.
